

APARTMENT RECYCLING AND WASTE SERVICE

Green Gorilla recycling and waste services have developed a specialist service to provide property managers with an efficient and reliable way to collect residents' waste, make apartment communities cleaner, minimise complaints, make residents' lives easier and provide environmentally responsible solutions for recycling and waste disposal.

Green Gorilla apartment recycling and waste services:

- Focused on waste diversion from landfill
- Quotations for budgeting
- Custom site waste management and minimisation plans
- Documentation and compliance
- Expert knowledge in recycling and waste for the apartment industry
- Completely integrated recycling and waste removal service
- Open and clear communications with a dedicated key account manager
- Minimised noise and low emission vehicles
- Flexible, agile and hassle-free operating service - 24/7
- Customer focused service operators
- Signage for bins and walls

From garden style apartments, mid-rise apartments through to urban high-rise, our solutions are intelligent and tirelessly focussed on the companies we serve and our commitment to diverting waste from landfill.

Passionate advocates and Platinum Sponsor of **Homestar v4**. The independent tool that rates and communicates the sustainability and performance of New Zealand homes, including multi-unit dwellings.

CASE STUDIES

SELWYN VILLAGE - RETIREMENT COMPLEX - 560 RESIDENTS

- 81-bed hospital • 16-bed unit • 61-bed rest home • 52-bed rest home
- entertainment, operations and management buildings

In 2015 **Green Gorilla** were asked to carry out a detailed review of waste management and recycling at Selwyn Village. Our core objective was to identify opportunities to improve service levels, reduce waste to landfill, increase recycling volumes and reduce overall waste management costs.

THE SOLUTION

- Recycling and Waste Audit
- Custom Recycling and Waste Management Plan
- Complete recycling and waste management operations
- Documentation of waste volumes

WAKEFIELD APARTMENTS - RESIDENTIAL CBD COMPLEX

- 84 apartments • 11 floors • 7 days a week service

This high rise residential condominium operates a rubbish chute system and is situated in one of the busiest precincts in the Auckland CBD. **Green Gorilla** services the entire complex with a range of recycling and waste bin solutions and compacting vehicles that operate 7 days a week to collect residents waste.

METLIFE CARE GREENWICH GARDENS - PREMIUM RETIREMENT VILLAGE

- 75 villas • 207 apartments • 28 serviced apartments • 61 bed facility

Green Gorilla's bespoke service provides a range of lidded bins ranging from 120L through to 660L which are selected on waste type, location and volumes. The waste and commingled recyclables are collected in our specialised compaction vehicles that have been designed to work within quiet environments.

Green Gorilla undertook a review of waste management and recycling at Greenwich Gardens. Our purpose was to identify opportunities to improve service levels, reduce waste to landfill and reduce overall waste management costs.

THE SOLUTION

- Custom Recycling and Waste Management Plan
- User-friendly, easily accessible bins
- Complete recycling, food waste and general waste service
- Reporting on waste and diversion volumes
